

Company Profile

Basant Tech L.L.C is a development software company founded in Amman Jordan that provides innovative solutions for enterprises. Our goal is to simplify complex business operations and provide our clients with reliable and efficient software systems. We specialize in billing systems, field service apps, custom development apps and consultation services, and we are committed to helping our clients optimize their operations and maximize their profitability.

Our Products and Services

BstUtility: Our flagship product, *BstUtility*, is a comprehensive billing system designed for utility companies. It provides accurate and efficient billing, payment processing, and customer management. *BstUtility* is customizable to meet the unique needs of each client and is built to integrate seamlessly with existing systems.

Field Service App: Our field service app is designed for workers who need to read meters and take notes in the field. The app is intuitive, user-friendly, and provides real-time data and analytics. It also works offline, ensuring that workers can access important information even in areas with limited connectivity.

Consultation Services & Custom Development Apps: Our consultation services are tailored to the specific needs of each client. We provide business analysis, system audits, and process improvement recommendations. Our team of experts has extensive experience in the utility field and is dedicated to helping our clients achieve their business goals.

Our Approach

At Basant Tech, we believe in building long-term relationships with our clients. We work closely with each client to understand their needs, identify pain points, and provide tailored solutions. Our team of developers, analysts, and consultants has a deep understanding of the utility field and is committed to staying up-to-date with the latest industry trends and technologies. We pride ourselves on providing excellent customer service and support, and we are always available to answer questions and provide guidance.

Our Clients

We have worked with a wide range of clients in the utility field, including electric, water companies. Our clients range from small startups to large enterprises, and we are proud to have helped them streamline their operations and achieve their business goals.
